Portfolio Website

Professional Summary

A dedicated Data Scientist passionate about delivering solutions capable of helping people and improving our world. Knowledgeable and proficient in computer programming languages and analytical strategies stemming from a variety of publication-focused research and high-profile clientele projects. Offering strong critical thinking skills, a diligent nature and 3+ years of related experience.

Education

Bachelors of Data Science, Concentration in Statistical Modeling

May 2025

Mississippi State University, Summa Cum Laude
Minor in Computer Science

Work History

Camgian

AI Engineer

Feb 2026 - Present

- Integrating improvements for forecasting model architecture and the generation of training data.
- Testing prioritization and tracking system improvements over industry-standard simulated products.

Data Scientist

June 2025 - Feb 2026

- Successfully developed complex pipelines despite limited data availability and client communications.
- Presented product demonstration to stakeholders and clients, communicating the marketplace value at different volumes and depths.

Data Science Intern

Feb 2025 - June 2025

- Dynamically enhanced "Data-to-Decision" pipeline products for commercial customers.

Mississippi State University

Data Science Undergraduate Researcher

Jan 2024 - Feb 2025

- Executed comprehensive statistical and programmatic analyses across diverse, high-impact projects.
- Optimized the MS Supreme Court Drug Intervention program's monthly data reporting processes.
- Performed in-depth trend analyses on snow presence across the Northern Hemisphere. (see Publications)

USDA Aflatoxin Research Internship

May 2023 - Aug 2023

- Conducted a thorough data analysis of toxins present in USDA Arizona crops.
- Curated a fully accessible dashboard presenting geospatial mapping with Python visualization packages.

Achievements & Involvement

- Volunteering member of Statistics Without Borders
- Honorable Mention, American Statistical Association AL-MS 2025 Annual Conference poster competition
- Former Vice President and founding member of the Data Science Ambassador Program
- Honorable Mention, MAS 2023 Research Symposium for USDA Aflatoxin research presentation

Skills

- | | | | |
|--------------------------|---------------------|----------------------|-------------------------|
| • Python Programming | • Tableau | • Data Visualization | • Project Management |
| • R Programming, RStudio | • VBA Macros, Excel | • Data Wrangling | • Dashboard Development |
